| RESIDENTIAL MONOGRAPH · 01

How to Light a 9,000 Sq.Ft Oceanfront Villa.

Azure — The Oceanic, Chennai. Architecture by WOW Architects (Singapore) · Lighting by LITELAB.

| DOUBLE-HEIGHT VOLUME

Concealed Coves Float Warm Timber Ceilings.

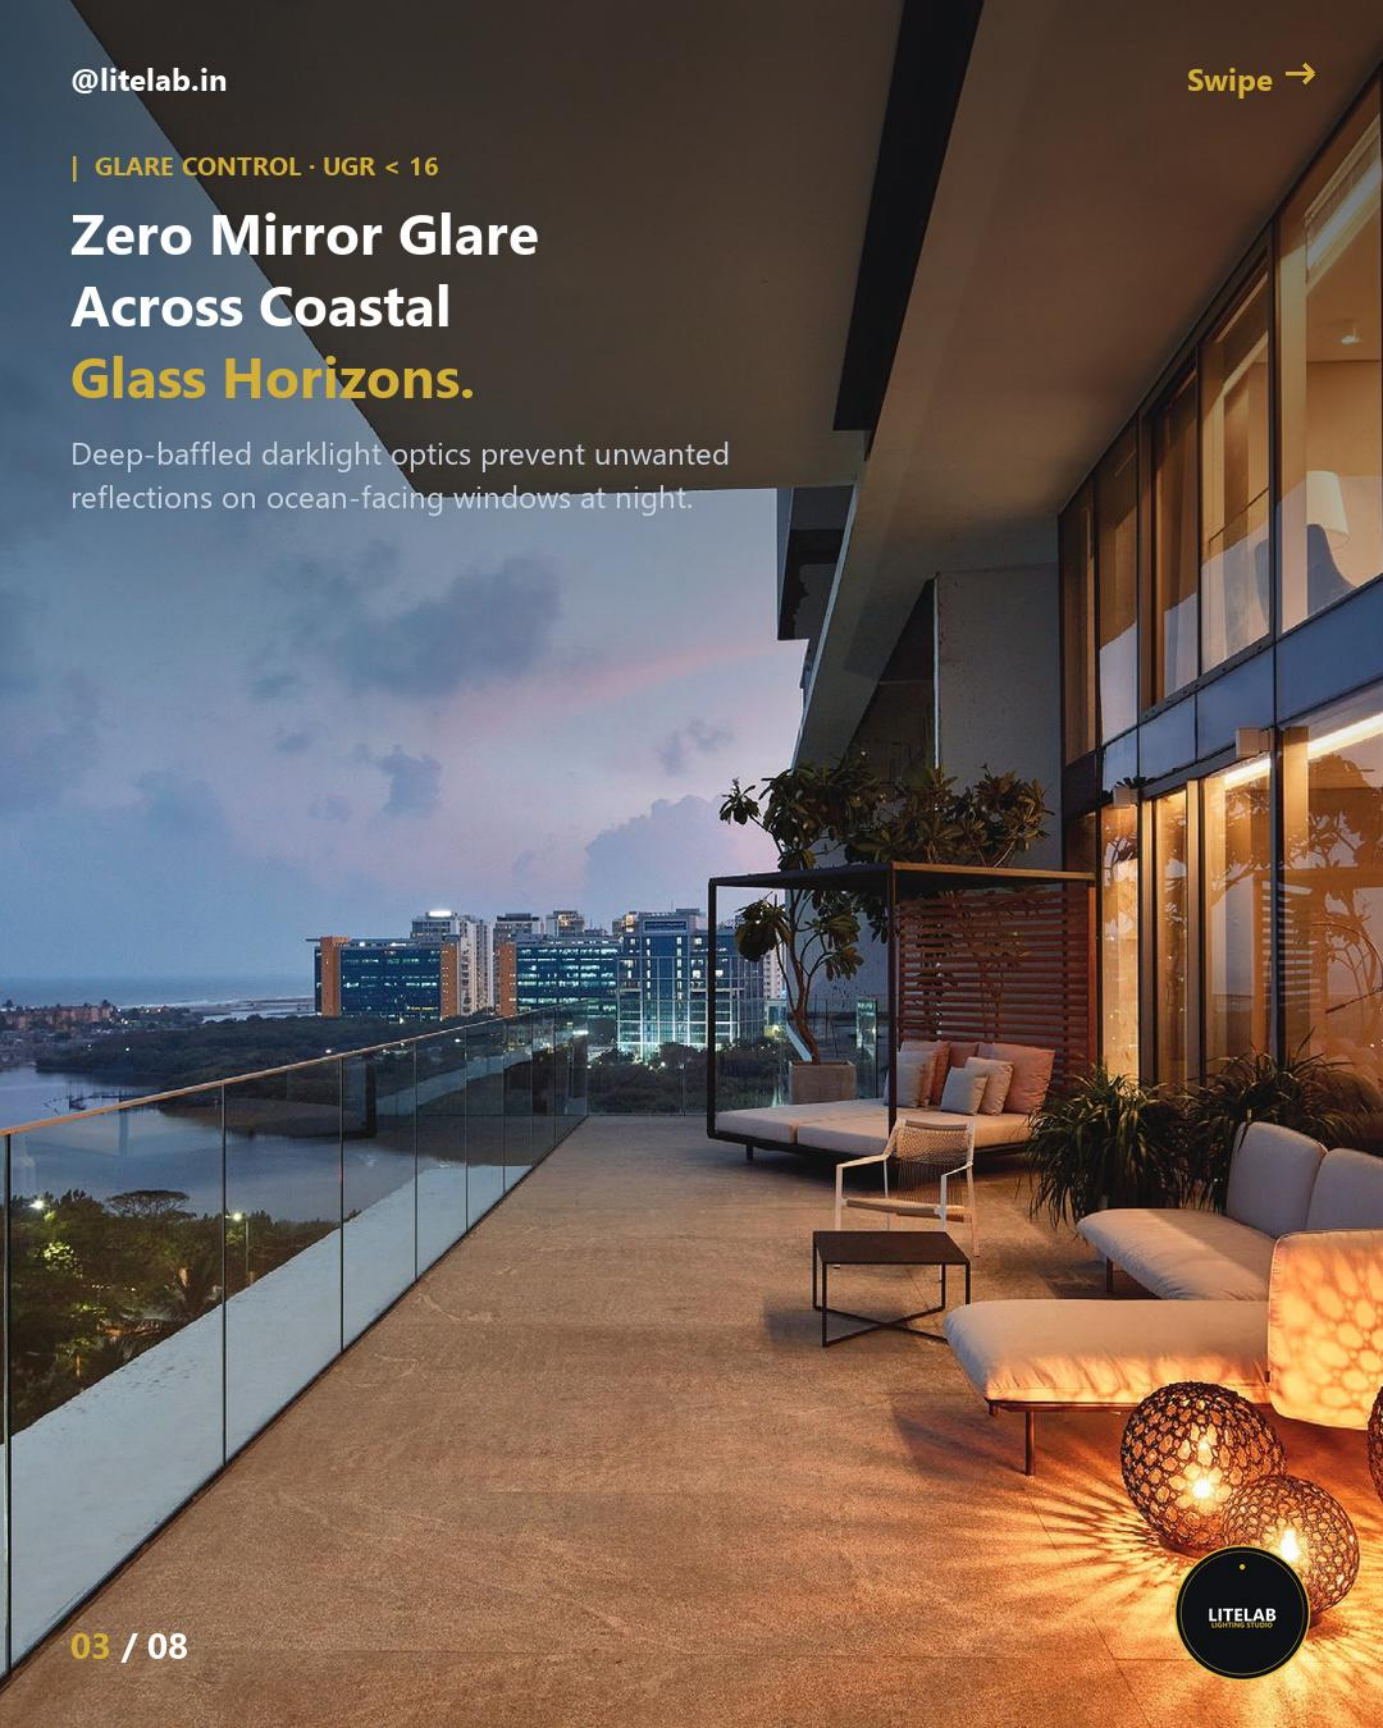

Indirect 2700K perimeter slots establish spatial warmth with zero visible ceiling clutter.

| GLARE CONTROL · UGR < 16

Zero Mirror Glare Across Coastal Glass Horizons.

Deep-baffled darklight optics prevent unwanted reflections on ocean-facing windows at night.

| SCULPTURAL HIERARCHY

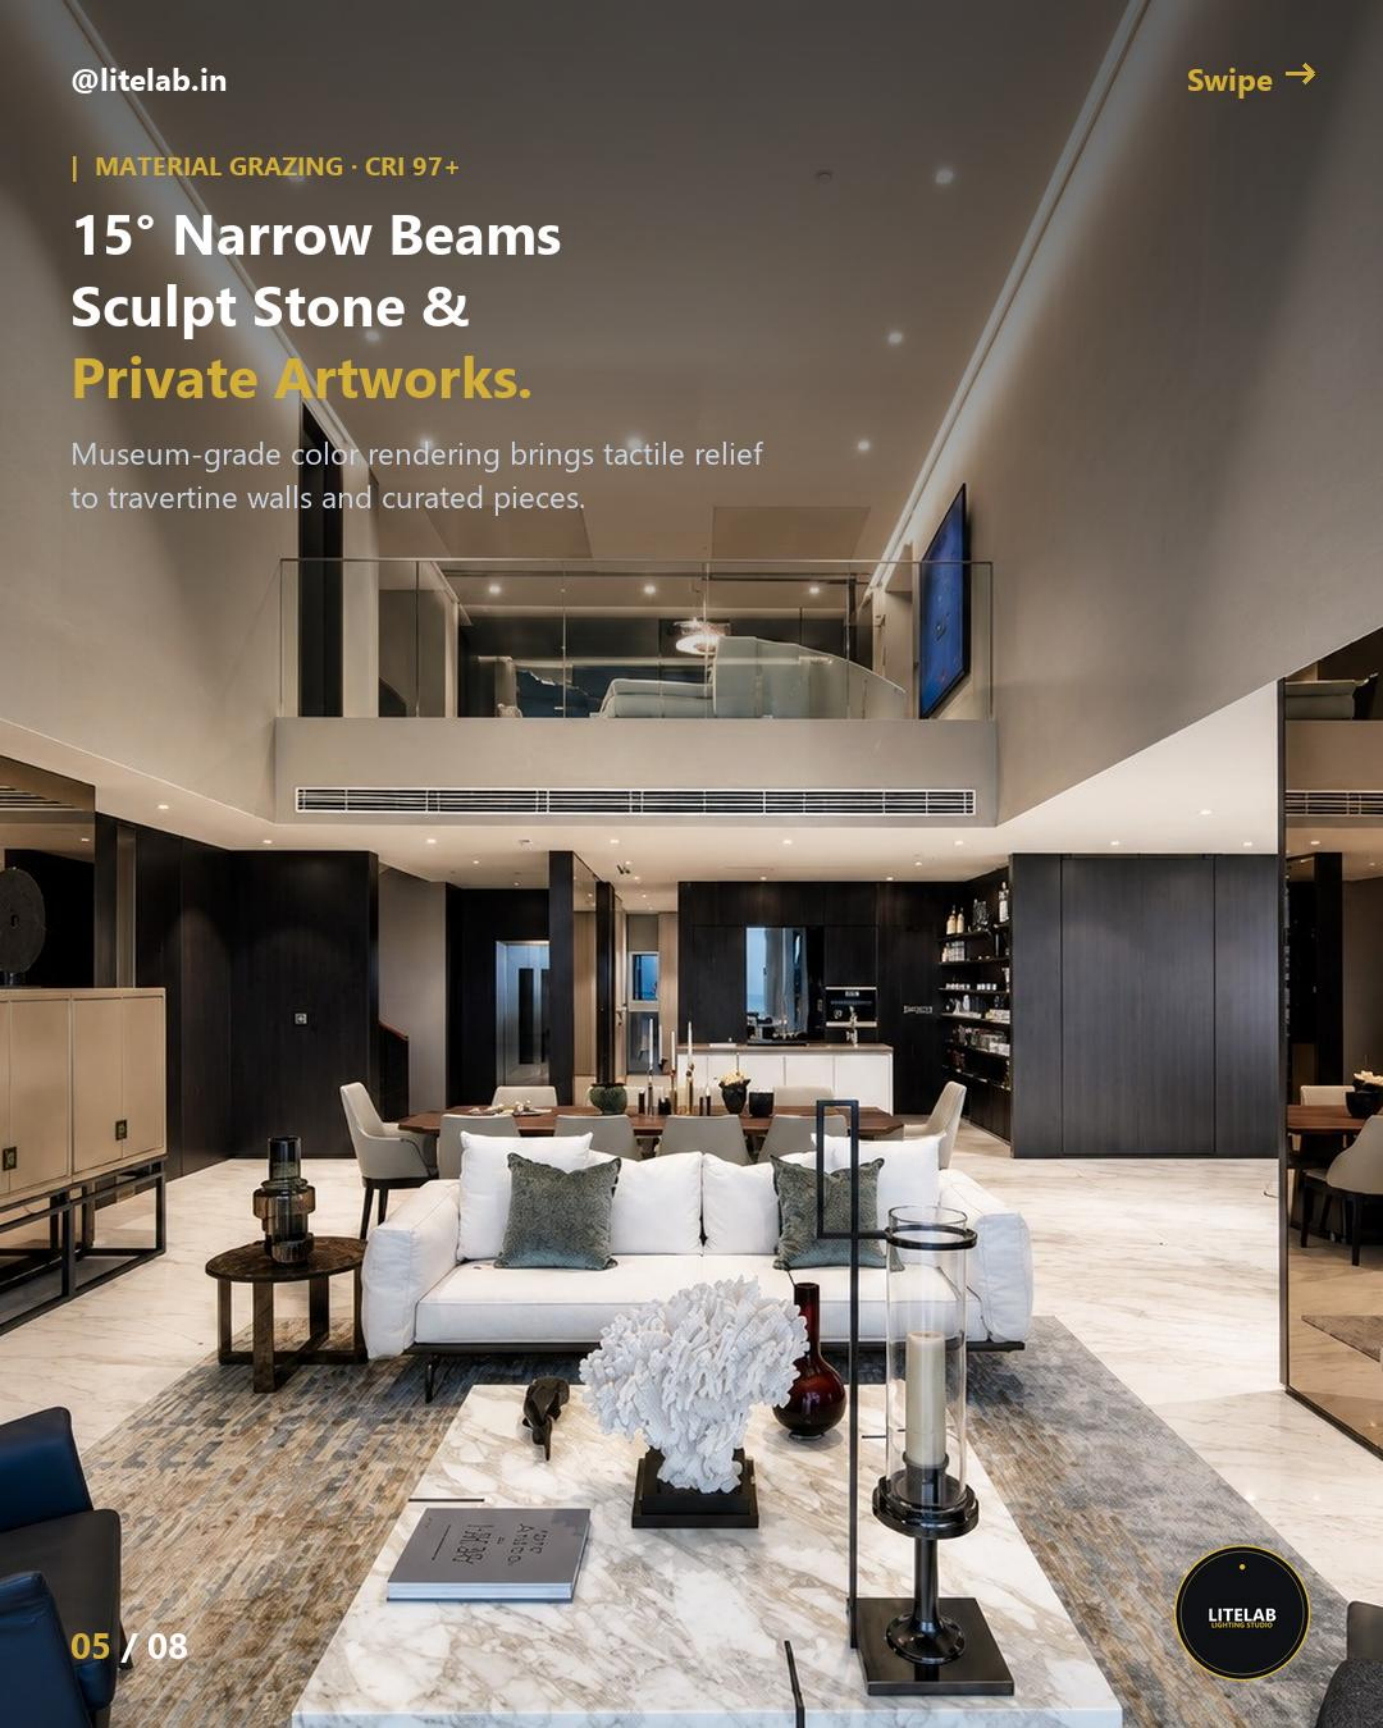

Decorative Pendants Anchor Human Gathering Zones.

Bespoke warm-dimming luminaires bring intimate scale to expansive double-height dining rooms.

| MATERIAL GRAZING · CRI 97+

15° Narrow Beams Sculpt Stone & Private Artworks.

Museum-grade color rendering brings tactile relief to travertine walls and curated pieces.

LIGHTING STUDIO

| INDOOR-OUTDOOR FLOW

Integrated Deck Luminaires Extend Visual Depth.

Subtle 2700K step and pool-terrace accents dissolve the boundary between lounge and sea.

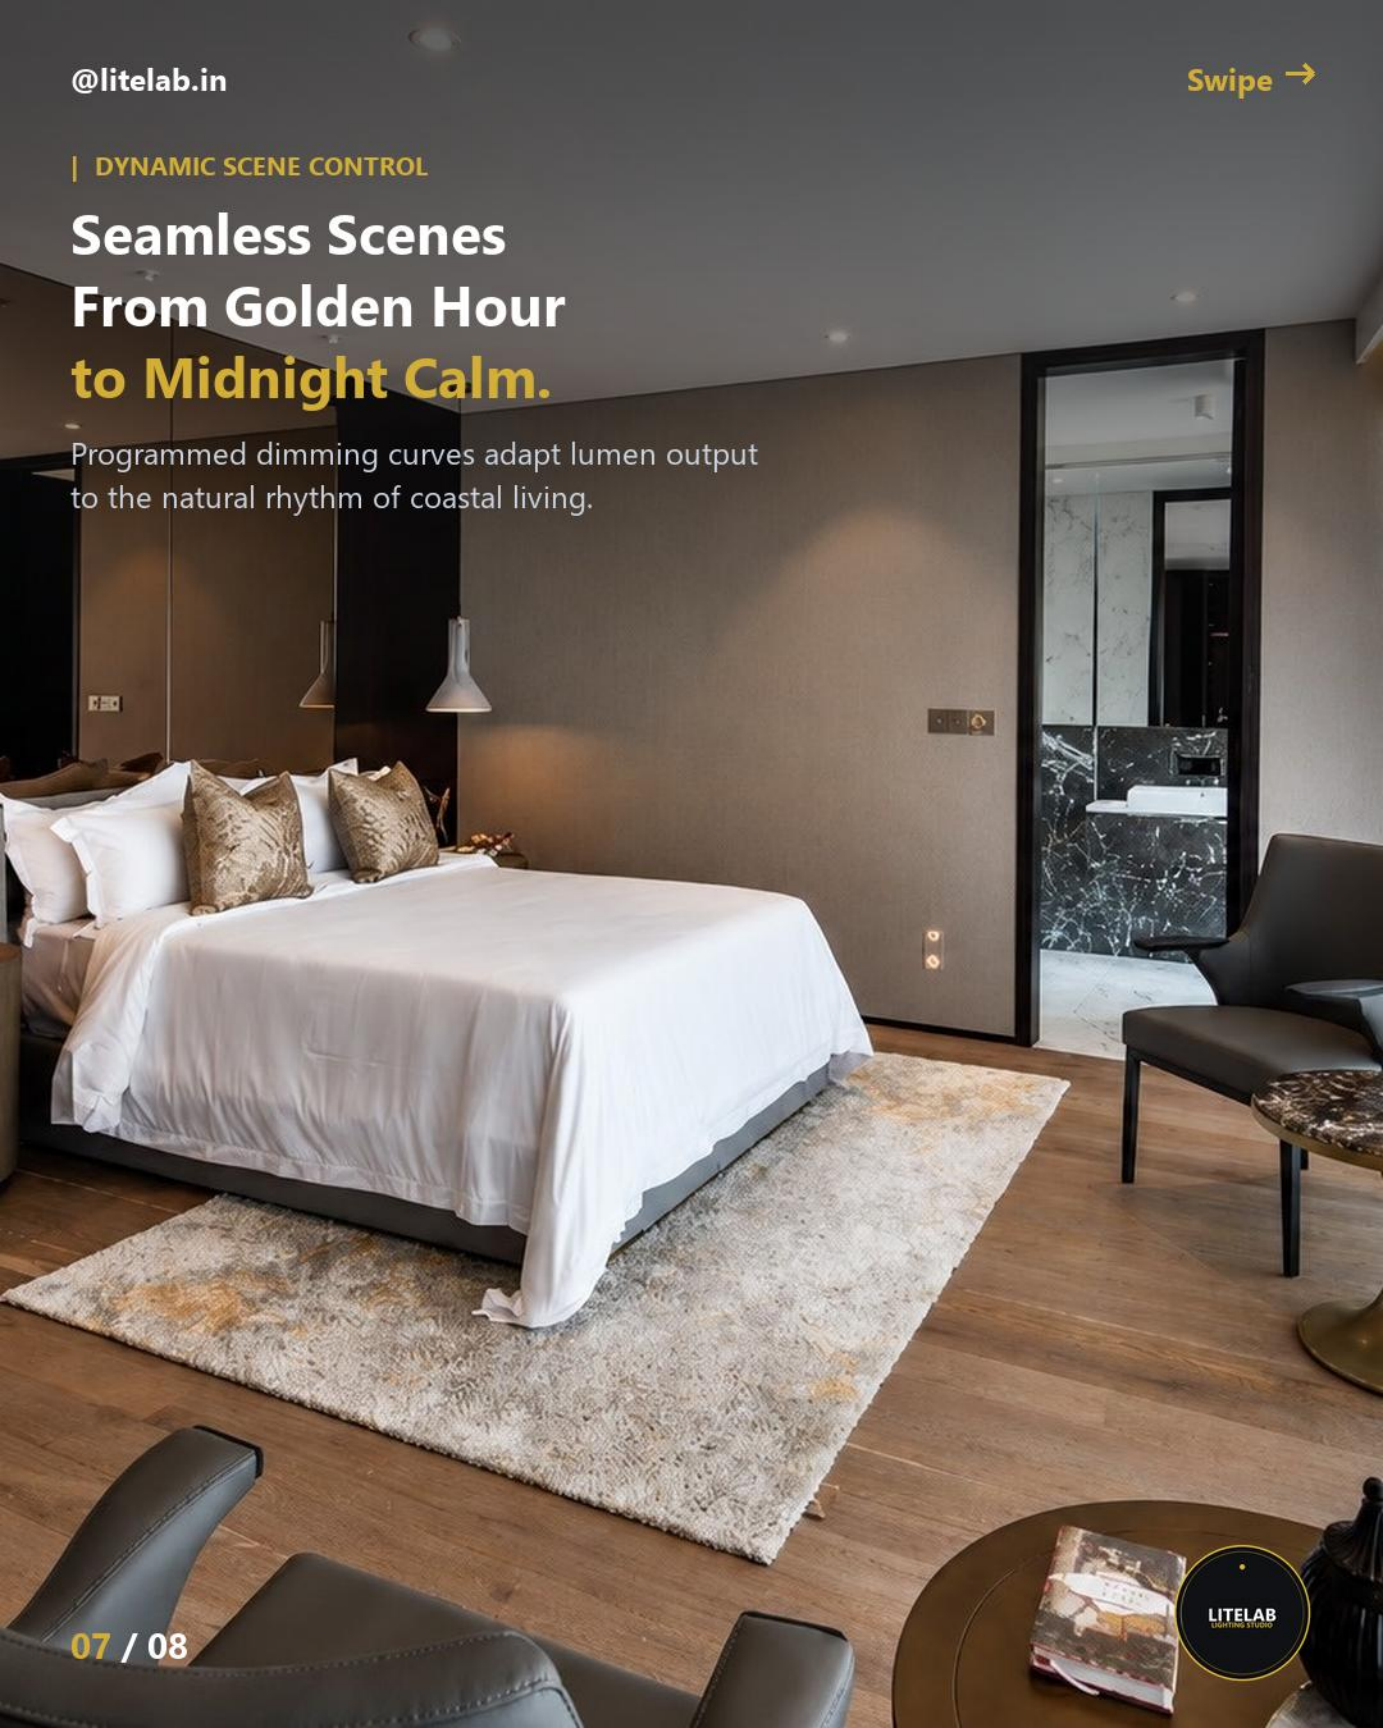

LITELAB
LIGHTING STUDIO

| DYNAMIC SCENE CONTROL

Seamless Scenes From Golden Hour to Midnight Calm.

Programmed dimming curves adapt lumen output to the natural rhythm of coastal living.
